Hi Senior Transcript Team,

I wanted to send out a quick update about what we've done today and give a sort of estimate of the work that is left to do for transcripts to be completed for seniors.

Per request from Mr. Gibson, we focused on the top 15 seniors and worked through their transcript issues. For these 15 students, we did the following:

- added their GradPoint courses and grades into their course history
- cleaned up a transcript issue from 2017-2018 where JFK students were given 2.0 credit for their classes, instead of 1.0 credit
- removed the credit for homeroom that was mistakenly given to some of these students in 2017-2018
- added Dual Enrollment credits when they hadn't already been added
- corrected the course code for the dual enrollment English IV course
- fixed the Health/PE class mis-coding for the students from this group who had that issue
- Added a temporary internship II grade (internship grades have been submitted to Ms. Banks, so we do not have access to them. But to configure the GPAs, we needed to add a placeholder onto two students' transcripts: [REDACTED] and [REDACTED]. Ms. DeLarge or I will correct this at a later date.)

We also stored all S2 grades for all students.

I've received a printout of GradPoint grades to enter into powerschool, and will work on those over the next day or two. I will also check the Dual Enrollment course printout to see if any of those credits are missing for students.

At this point, if any students have pending work to turn in to their teachers, the teacher must fill out a **grade change request** to change the grade in the student's historical grades in powerschool. If a teacher changes a senior's grade in their gradebook, it will not affect the student's stored grade. **Please advise teachers that they must request a grade change in writing for a senior's grade to be changed at this point.** Their gradebooks can help them calculate the grades, but nothing they do in their gradebook will affect a senior's grade from this point on, unless they request a change.

S2 grades for non-seniors will be updated when the school year ends for non-seniors, and the grades that are currently in their "historical grades" will be overridden by whatever grades the teachers have in their powerschool gradebooks when we store S2 grades again in a few weeks.

Additionally, I believe Mr. Matthews has blocked student and parent access to powerschool for now, so they don't see inaccurate grades stored as final grades.

Please let me know if any of this doesn't make sense or if I've missed something! Also, still waiting on the following to assist with this process:

1. Prior year's transcripts from other schools and summer schools for students with transcript issues (This is for a few students whose transcripts haven't been entered into powerschool. I believe Dr. Payne has copies in the Senior Binder)
2. EOC individual printouts for seniors (Ms. Knight will get these after testing is completed. Eventually, they will go in the cumulative folder.)
3. Internship grades from semester 2 (these were submitted to Ms. Banks, but have not been entered into Powerschool)
4. Final list of students waiting for EOC testing results (these will come when the state releases the scores for each student.)

Again, please let me know if I've missed something.

Have a great Senior Night tonight, for all who are going,  
Laney

## What we're working on this week

To: email: "meghan@thefensquaregroup.com Meghan Turner" , email: "roderick.matthews@newbeginningsnola.net Roderick Matthews"

1. Storing S2 grades for underclassmen  
-waiting for final grades from one teacher before grades can be stored
  2. Printing report cards for S2  
-I need access to modifying reports in powerschool so I can create this report card, and then once grades are stored, we can create, check, and print S2 report cards.
  3. Transcript Audits for 11th, 10th, and 9th graders  
-Hopefully Ms. DeLarge will have access to powerschool to help put student graduation requirements into powerscheduler.  
-identify student opportunity/needs for summer school
  4. Senior transcripts updated and corrected, including:  
-transfer students' transcripts need to be added/updated for 10+ students  
-seniors who went to JFK last year need their credits fixed (they were given 2 credits for 1 credit courses, so we are deleting their credit earned in S2 of whole year courses. We are about half done with this.)  
-dual enrollment courses need to be added to transcripts  
-teacher credit recovery/grade updates need to be added to transcripts, and grad point courses need to be added to transcripts, but neither can be done until the investigation into the validity of those courses is verified.

I don't know if this is at all helpful, since I can't really confirm or deny whether an issue exists. I can't tell by looking whether GPAs are right or wrong, and I haven't done any investigating. My memory of that day was that you and I believed that the GPAs should be based on what is in powerschool and what will be on student's transcripts, and I still believe that's important. If you're willing to wait until we submit transcripts to STS to determine who is the Val and Sal, that would be the most official way to make the determination. But it obviously couldn't be done by the ceremony today.

I remember this conversation from the day we stored grades and added their semester 2 grades and their dual enrollment + grad point credits.

I don't know what to advise. Historical grade data is riddled with errors that might be affecting the GPA but I can't be certain because this is not something I've dealt with before. (For example, I've found classes that are listed with 0 earned credit and 1 potential credit, even though the grade was a passing grade. I've also found grades with 1 earned credit and 0 potential credit, which isn't right- if a grade earns credit, it should have the same amount in both "earned credit" and "potential credit" fields. That might be affecting which grades are going into the calculation of the GPA. This is only one type of error that was common, and that I tried to fix when I saw it but can't be 100% certain it was fixed for all grades on each top senior's transcript. I also don't know if quarter grades and semester grades that don't receive credit are somehow factoring into the GPA since I didn't set up the GPA in powerschool and I haven't looked into how it is calculated.)

To be perfectly frank, this is not a problem that I can solve easily, or even in a matter of hours. I don't even know for sure whether the data issues I've discovered are affecting GPAs.

Good afternoon, Laney:

I am writing to share concern voiced by Ms. DeLarge this morning in regard to the calculation of the valedictorian and salutatorian grade point averages. She is not in agreement with the outcome of the work we did collectively to ensure a final vetted listing of the top students of this class.

Please advise

Good Morning,

Devon is aware of our tracking process. We are are waiting for the final Senior Certification list that should be provided by Devon, Mrs. Owens (our senior counselor), and Mrs. Banks (our data manager). This list, of course, will be a projection because students still have not received final grades from this semester, however, they are working on a list that shows that seniors have been scheduled correctly and only need to pass the courses they are currently enrolled in to earn a diploma. Their deadline to produce this list is May 3rd which was set by Mrs. Duroncelay. Additionally, there is a group of seniors who also need to meet the testing requirements. Mr. Gibson has met with each of these students and their parents in preparation for EOC testing. The tracker that was shared was to provide you some additional working knowledge around our process and to give some context into our vision for our seniors. Please let me know if you have any additional questions. Hope this helps!

Hi Team,

Thank you for all your support with this project. Despite the progress, we have several outstanding items to complete and verify before graduation. Let's plan to meet tomorrow at 9:30am in the library to review current status of seniors, share updates, collect needed information, and outline next steps.

Thanks,

Meghan Caye Turner

I have gone through all but 50 seniors, and hope to finish that 50 today. Thus far, I have found 95 who have 100% met the graduation requirements, and 30 who have not met the requirements. I'm going to include my list of non-graduates and what is missing or why they are ineligible. There are two situations that we thought were resolved via errors in coding on powerschool, but on review, credits are still missing. If an administrator would like to talk to me about possible solutions those two issues, please feel free to call me: 504-473-0481, or we can talk tomorrow. (The students are highlighted in yellow.) The students on this list either did not pass EOC, did not pass a required class during the second semester, or did not have a passing grade in Grad Point in a required class.

Issues:

1. Health and PE, when they are two .5 credit classes, are not on here. They are on transcripts wrong (need to be fixed by hand) but I don't know how we can have them on report cards unless we include Q4. If we include Q4, we will open the school up to many more questions. POTENTIAL SOLUTION: leave them off the report card and handle any questions from parents and students about that as they come.

2. Students changed classes after the seniors left them, so I have to print the grades separately to capture the classes they were in. Attached, by grade.

3. There are massive inconsistencies with grades and attendance.  
-e.g. when Cooper or Knight were the teacher, attendance was not kept in powerschool.

What other issues do you see?

Hi Laney,

Hope all is well. I just wanted to keep you in the loop of my email below.

----- Forwarded message -----

From: **Brian Gibson** <[brian.gibson@newbeginningsnola.net](mailto:brian.gibson@newbeginningsnola.net)>  
Date: Sat, May 18, 2019 at 4:58 PM  
Subject: Concerns  
To: Meghan Turner <[Meghan@thetensquaregroup.com](mailto:Meghan@thetensquaregroup.com)>

Hi Meghan,

First and foremost, please advise why PowerSchool access has been taken from all of the Admins at JFK without any notice or communication.

Secondly, I'm very concerned about how this narrative is playing out regarding the 2019 candidates for graduation. My team and I, have only served as a constant and in a lot of cases the only support to Laney's attempt at creating an accurate graduation list. This is and should've always been the work of the counselors and data manager. Prior to TenSquared coming aboard, the counselors (Mrs. Owens & Ms. Delarge) in conjunction with the data manager (Rachael Banks), with oversight from Mr. Matthews was given the charge of creating a potential graduate list. This list never materialized, in fact when you joined us, you were still asking for that very list. Since you came on Mrs. Owens quit and provided very little for Laney to work with and offered no help. Rachael Banks worked sparingly and resigned after taking off close to two weeks straight and left with very little done to help this process. I believe that what these ladies did was always what they had intended to do, which was to leave this senior cohort in complete disarray.

Despite our many challenges, our team remained committed to ensuring that our students would not be negatively impacted by the lack of professionalism displayed by the aforementioned. In our very first team meeting with Laney, a list was presented by you and Mr. Matthews that had many questions about seniors. I shared with you and others that we had been working proactively to produce a list that could be used as a reference. The conclusion from that meeting was the team had presented a lot of information for Laney to begin her process. Since then, my team has worked diligently as a support to Laney to help clear up any questions about seniors. My team greatly valued Laney's work and never worked in isolation of the established process. Somewhere in this last two or three weeks, my team became the owners of this work in conjunction with Laney, when this was and should've always been the work of the counselors, data manager and Devon. To now put this work under so much scrutiny, as if we were the only owners of it, doesn't feel right.

Lastly, the email referencing several questions about student graduates also doesn't feel right, as we were only attempting to provide Laney with the answers to questions, while providing students with the opportunity to complete work until the agreed upon deadline. There was nothing done in absence of anyone, that I'm aware of. The email sent by Mr. Matthews a few hours before graduation, referencing a child who had been determined as eligible for graduation, not meeting the graduation requirements felt very disingenuous. Throughout the process, communication with Laney has been very fluid which is why it is very concerning that if Mr. Matthews had a question about any student(s), that would lead to additional research, that the information would not be shared with the team.

We have and will always work in the best interest of the children we serve, which is why since January we have tried to stay up on this work, while the people who were responsible resigned or did very little. Please be prepared to have honest conversation about all of this on Monday.

Hi Ashlei,

I've made the following changes to transcripts and would love your help checking my work. Could you flip through these and let me know if you see something incorrect?

Issues [hopefully] cleared up:

- double credits for S2 + Y1 of 2017-2018 removed
- credit for homeroom removed
- Health and PE 1 (.5) each given .5 credit
- Dual Enrollment credits added (for all but one student- need to figure out course code for Sociology and Bio101)
- Credit recovery from individual teachers added/updated

STILL NOT ALL ADDED TO TRANSCRIPTS:

- Grad Point credits/grades (some have been added but most have not)
- Spanish II updates
- transfer transcript corrections not all made

Please let me know if you see any of the things I supposedly fixed that aren't fixed, or if you see any issues I don't already know about. Thanks!

Yes, this is a part of the Louisiana Data Review process. I came in on the back end of this, and worked with Ms. Banks and Ms. DeLarge to get as much of this work done as possible. I just reached out to LDOE last week on this and was granted permission to upload a few other seniors that I discovered who meet the requirements, but were not reported. I will go online and pull the report.

Hi Everyone,

Here's a summary of our work today. Thank you so much for your assistance.

We broke the remaining 52 seniors into case loads, according to where they are in the graduation / records update process. Please check these lists and let me know ASAP if something is inaccurate, if a student is in the wrong caseload.

1. These students are on **Laney's** case load. They have met the graduation requirements and documentation has been provided to Laney, now she needs to enter it into powerschool. They are **GRADUATES**.

2. These students are on **Dr. Payne's** case load. They have most likely met the graduation requirements, but the documentation from Grad Point (or other sources) needs to be provided to Laney so she can verify that they have met the graduation course requirements. They are **PROBABLE GRADUATES**. Once documentation is submitted and reviewed by Laney, they become graduates (if everything is accurate and they have met the requirements.) These students are \*no longer\* working on course work, and we are just in the process of getting their grades verified and into powerschool.

Hi Everyone,

I checked on this as well, and can confirm what Devon is saying. She received the following in 2016-2017 from Lake Area:

-1.0 credit in English III from Lindsey Hutchins

-1.0 credit in Biology from C. Greer

-1.0 credit in Geometry from Wanda Johnson

-1.0 credit in Algebra I from Monique Scott, whose final comment is: "Student needs to attend EOC Tutoring on Tuesdays and Thursdays at 4pm to 6pm."

Is it possible to confirm this with grade verifications from 2016-2017?

It looks like she received credit for English II and US History from [REDACTED] I haven't had a chance to put her full transcript in from [REDACTED], which gives her the US history credit.

I know this isn't welcome news. I wish it were different.

Meghan,

We understand the policy and stand by the decision regarding students not being able to participate in graduation based on not meeting requirements. [REDACTED] situation brings into question the overall policy regarding testing because he was not afforded every opportunity to sit for the EOC test. We definitely want to abide by all policies, but please understand that the school was negligent because unlike every other student, he was not afforded every opportunity to demonstrate proficiency on this exam. We do not agree with this decision and feel that this decision is wrong. Our administrative team collectively agree that he should be allowed to participate in the ceremony. Furthermore, [REDACTED] parents are prepared to meet with you at 12:30.

Hi Mr. Gibson,

I agree that this an unfortunate situation. The student was flagged on our transcript audit for several weeks. We were told that the parent was aware of the EOC situation and your team was working to clarify the student number issue. However, the student does not qualify for graduation. Nine other students that did not pass an EOC test were told they could not participate in graduation. Allowing this student to participate would be inconsistent with the policy used for other students that did not pass the EOC. I would encourage you to be consistent with the policy used for the other students.

Best,

Meghan Caye Turner

Hi Meghan

[REDACTED] is currently a 12<sup>th</sup> grade student who has been determined ineligible for graduation based on not meeting EOC requirements. [REDACTED] has a unique situation in that he was told by the former District Test Coordinator (Dr. Runell King) and his Guidance Counselor (Ashlei DeLarge) that he passed the Biology EOC. The aforementioned Guidance Counselor has corroborated this statement. Additionally, [REDACTED] and his mother were provided with a passing Biology score at that time. Records show that [REDACTED] has not sat for the Biology EOC since 2016, missing several opportunities to demonstrate proficiency on said test. Under the instruction of the new test coordinator, Lisa Knight,

██████ was advised that he did not meet the Biology requirement. ██████ presented to Ms. Knight his two identification numbers and expressed that there was an error as a result of him having multiple numbers. We are asking that he be allowed to participate in the ceremony (*please note: he will NOT receive a high school diploma*) with the condition that he and his parent sign an agreement with the school that outlines stipulations for participation. We appreciate your support on this matter as this is a very sensitive issue regarding miscommunications from network and school site personnel to a student and his family.

I am writing to express my feelings as it relates to this process that we have been going through with Ten Square. I am very appreciative of all the work that has been done to help close out this year, and prepare for next year; however, I would be remised if I didn't speak on how I believe we've gotten to this point.

At the onset of my employment with New Beginnings, our team was met with many challenges. We were challenged with getting accurate data, up-to-date student records and financial budgets/reports. Moreover, all of our attempts to address these concerns were tharwted. What we discovered was blatant mismanagement and incompetence in the data management and counseling departments. In addition to these challenges, there has been a clear attempt to sabotage this administration, which I believe is evident by the continued presentation of false allegations and attempted character assassination. The incredible collaborative work done to produce our graduation class by tensquard and this administration, was done without the assistance of both our senior counselor and data manager who both resigned without producing many records at all. I'm certain that this is not something that could be done without the multitude of skill sets that this group has exhibited.

## Senior Grad Point List

Hello All,

This is the Grad Point list that we are working from. This list is comprised of students that Mrs. Owens programmed as well as any other student who had an active account.

Mrs. Owens please review and alert us of any errors or changes that should be made to ensure that all of our students are accurately represented. Thanks in advance for your cooperation.

Our Admin Team has met with every senior who was present today and we will update progress as we contact those who were Not Present (NP). Additionally, we will update this list as we continue to work with students so hopefully we begin to see more green boxes!

Hi Terri,

Thanks for reaching out. The policy is actually for a parent complaint is actually to schedule a meeting with network staff. I'm currently working to gather the information from our team regarding graduation issues. I can connect with you and the parent once I've gathered all the information.

Thanks,

Meghan Caye Turner

This morning at approximately 10:10 am I received a message that a parent was downstairs at Capdau hoping to meet with someone regarding JFK student [REDACTED] and his graduation status.

My first response was to call Mr. Gibson, who informed me that he has met with that parent several times and that the parent expressed understanding that the student does not qualify for participation in the graduation ceremony. In their conversation it was concluded that there is nothing more Mr. Gibson could tell the parent.

Understanding that the parent has a right to approach the Network leadership after having met with school leadership, I attempted to call Meghan, who evidently was not available to answer. Understanding that Kathy is out with family illness and Andrew expressed earlier this week in response to another parent showing up that he was not the person to respond to parent inquiries, I was left to use my professional judgment in responding to the parent.

I called the front desk, asked to speak with the parent and told her that in the absence of an incumbent CEO, the responsibility to hear her complaint falls on the board or its designee. However, there was no one currently in this building who could hear her complaint. I took her contact information (see below) and told her that someone from the board or their designee would contact her. Her information is as follows:

Ms. Washington

Re: [REDACTED]  
504-373-0057

I hope this was handled properly. I have Michael Washington on copy because I asked him to sit in with me as a witness as I spoke to the parent on the phone. The parent was very peaceful, but did ask if someone could call her ASAP because graduation is this afternoon. Please let me know if there are any questions.

Sounds good. I will be there after the program but I can access the system and adjust accounts as needed to allow them to input the grades.

I think making a plan with individual teachers can work. Since there wasn't any messaging over the weekend, this plan isn't as realistic now. Teachers might still need time to grade everything.

When I printed gradebooks, there were a number that did not have any final exam grades, so I think there are definitely teachers who will need time to enter grades.

I'll be available by phone by 8:40 and plan to be at Capdau by 9.

Have fun at your son's ceremony, Devon!

Hi Devon,

Below is Laney's suggestion for collecting grades and grade verification at JFK. Please review and we can discuss your thoughts over the phone before your son's ceremony. Does 8:40am work for a quick call?

**Proposal for grade submittal**

1. Devon (or Laney) make a gradebook report for each teacher by the end of Friday or by Saturday morning that teachers can use as a paper gradebook in calculating grades.
2. Teachers who have completed their grades sign their verifications and turn them in to [laney?].
3. Teachers who have not completed their grades use the weekend to grade all outstanding work, final exams, etc. These teachers email [person] by Saturday at noon to set up an appointment to enter these individual grades into PowerSchool on Monday. All work from students must be completed before that teacher's appointment to enter their grades into the computer gradebook.
4. On Monday, those teachers meet with the supervision person and enter their grades, the verifications are printed, signed, and left with the grade supervisor.

I am also concerned about the logistics of this plan for teachers who needed to complete everything today. Considering that teachers are receiving this notice in late morning, and the number of teachers we have, I'm not sure that this can be completed with Ms. French

I don't know you Mr. Gang but in order for JFK and Kennedy to be successful you need consistency. The Board and Network have been systematically undermining the success and consistency at this school over the last three years. I am angry about the mismanagement and the illicit activity at the network level. I am angry and disappointed about how I was treated by the suggested outreach team. When I came to this network there were four schools and now there are two. It is easy to point the fingers at school administration and teachers but it is not fair to hold us accountable when we are forced to orchestrate ineffective pedagogical techniques from inexperienced and unproven network administrators.

I did not receive a fair evaluation from the outreach team. He came during the 4th period when I was transitioned in the library, had just broken up an altercation, and I was watching students from three different classrooms because they were sending them to the library. When I explained this to him after he introduced himself, he repeated his name and said again that he was there to evaluate me. He was in the library for maybe five minutes. This was not a fair assessment.

On his second trip to re evaluate me he appeared frustrated and yet surprised that class was running smooth and effective. As a certified teacher I am puzzled that non certified teachers were retained and I was wasn't. As a black male I am questionable because several non certified teachers that were retained are white. I feel as though I have been caught up in academic politics and agendas. I pray that John F Kennedy is given the correct opportunities to flourish. Research shows that it takes approximately three years to make academic growth constant. The New Beginnings Board and Network Administration has been failing the students at John F Kennedy because inconsistency, nepotism, and corruption. Yet it seems only the school is being held accountable. Mr. Gang please have the tenacity and fortitude to make mature productive decisions for the students I am being forced to leave at John F Kennedy.

Thank You,

Robert McGriff

Hi Mr. Gibson,

While I understand that you told students diplomas would be available Monday morning, it's unclear on how long it may take to resolve and verify everything. It will not likely be done before 9am. In addition to outstanding issues, Powerschool needs to be verified for correct names and spelling.

No diplomas will be issued until everything is verified and resolved. Please send out a school messenger text and email letting students know that diplomas will be mailed. The students or guardians may call the school to confirm their address and two contact numbers. Any students that arrives at school on Monday to collect a diploma should also verify their mailing address and leave two contact numbers.

I've copied Devon on this email. He should be able to assist with the School Messenger texts and emails to seniors re: this update.

Thank you,

- ACTION: Send list of students that have completed seat time makeup
- ACTION: Provide backup of seat time makeup for student and school records
  - Sign in sheets (scanned copy)
  - Student level back up (signed list with student name, course, hours of makeup needed, hours of makeup completed)
    - Signed and dated by leadership
- NEXT STEP:
  - Finalize plan and approval for make up seat time to be recorded in Powerschool
  - Input data in Powerschool (policy and approval needed first)

Please let me know who will be taking the lead on completing the three action items for seat time makeup.

Good Afternoon Everyone,

I just wanted to touch base and make sure we're on the same page about next steps from our meeting yesterday. Here's what I think we agreed on, please let me know if there's anything I've misunderstood:

I organized this by student issue. Questions I have are at the end of each paragraph, in blue.

ISSUE 1: Students with failing S2 grades.

---ACTION: Laney will go through the Fs list and check students' current grades in powerschool. After grades have been stored, Laney will print updated transcripts with final S2 grades to reflect the final grades, and put those in the graduation files.

ISSUE 2: Students with incorrect coding from classes taken at Lake Area/JFK, including:

-A: Health/PE issue from 2017-2018

-B: Semester 1 classes/grades from 2018-2019 that weren't stored

-C: Spanish I coded twice for a student when the student was enrolled in Spanish II

-D: Arts classes that need to be confirmed to have the state course code to meet the arts requirement

---ACTION: Ashley or Dr. Payne will provide documentation of what the student should have earned to Laney for the graduation file, and then submit a transcript change request (? or something? How are transcript changes made?) to the appropriate person.

---ACTION: Ashley will check the fine arts state codes to make sure that classes that meet the criteria for the Arts requirement are coded correctly (Graphic Arts, Music and Media, Drama I, and others.)

*Question: What is the process for updating transcripts in powerschool?*

ISSUE 3: Student transcripts missing required courses that were made up on Grad Point

---ACTION: Ms. Cooper will print or email individual reports for senior Grad Point progress to Laney, and then also submit a transcript change request (? Or however this is done) to the appropriate person so the courses can be added to the students' transcripts ASAP.

ISSUE 4: EOC scores pending for students

---ACTION: [Testing Coordinator] will print individual EOC test reports for all seniors and provide them to Laney for the graduation files

---ACTION: [Testing coordinator, or anyone who can check the seniors' EOC scores] will communicate the final scores to the senior team, and [I think Ms. Coleman?] will contact the seniors who tested to inform them of their scores, and their graduation status.

*Question: Who is the testing coordinator? Who has the difficult task of talking to seniors about their test scores?*

ISSUE 5: Transcripts incomplete from prior years at a non-JFK/Lake Area school (this is for the students missing credits on their powerschool transcripts who took the course and somehow it didn't get onto their JFK transcript, or wasn't coded correctly on their transcript, but we have a physical copy of the credit given)

---ACTION: Dr. Payne will provide copies of those transcripts to Laney for the graduation file, and then submit a transcript change request [again, not sure the process for this].

ISSUE 6: Students who are, at this moment, still working on completing work for graduation requirements.

---ACTION: their grade will be stored when grades are stored as an F, and if they complete the work, whoever is in charge of this [I think this is Ms. Coleman?] can request a grade change for that student.

*Question: who is the point person for this? What is the deadline for completing this work?*

Issue 7: Final grades for S2 not stored in powerschool

---ACTION: The data team [Ms. Banks and Mr. Matthers?] will store final grades in powerschool by the end of the day today.

Issue 8: Some teachers have not submitted grade verification forms

---ACTION: Mr. Gibson and Ms. Cooper will contact individual teachers who have not turned in grade verifications.

Is there anything I missed? I'm working from home today but available by email or phone: 504-473-0481. I feel really hopeful after our meeting yesterday. Let me know if there's something more I can do to help.

Have a good day,

Laney French

Hi Ms. Knight & Ms. Copper,

Do you have a list of students flagged summer remediation and/or EOC testing? I'm looking to compile a complete list of students that will be offered school remediation and any associated summer assessments.

Lori, I know ESY is also happening. Please confirm the list of JFK students attending ESY this summer.

Hi Ms. Cooper,

Thank you for spending so your day working through the senior list with me today. If you get a chance today or tomorrow morning, could you print out or email individual Grade Point reports for the seniors who have courses (spending or completed) in the system? I'm going to spend tomorrow updating my spreadsheet/files and would love to have those records to work with.

It was very nice meeting you today.
